****Concert Master...*Section Leaders.**
 Wind and percussion members of the Orchestra will be found with an asterisk in front of their names in the Band listing.

A WORD TO OUR PARENTS AND FRIENDS....

A member of band, orchestra or chorus acquires a deeper appreciation of music through the medium of performance because he receives direct experiences with music of various periods and an understanding of style and structure in a practical manner surpassed by no other means.

Our students have the advantages of a program that offers every child the socializing force that is so important in our society and the opportunity for expression through the creative art of music. An opportunity is also offered the gifted individual student to perform alone or in small ensembles. A most important goal has always been to increase the individual satisfaction of our students by keeping the level of competency and achievement as high as the organization's capacity permits.

We would hope, also, to teach our students through public performances not only how to face an audience, but as an audience, how to listen. It is convenient also that at these same public performances, our students can use the community in attendance as a model; our concert performances, then, become an extension of the classroom.

We extend our appreciation to those of you in attendance this evening and hope you have not only observed our teaching for the semester but have found some measure of enjoyment in music.

THE MUSIC DEPARTMENT thanks Mr. LeCluse of the Industrial Arts Department for preparing this program, and to Miss O'Keefe and the girls of the Blue Key Society for their assistance this evening.
