PRESIDENT'S MESSAGE

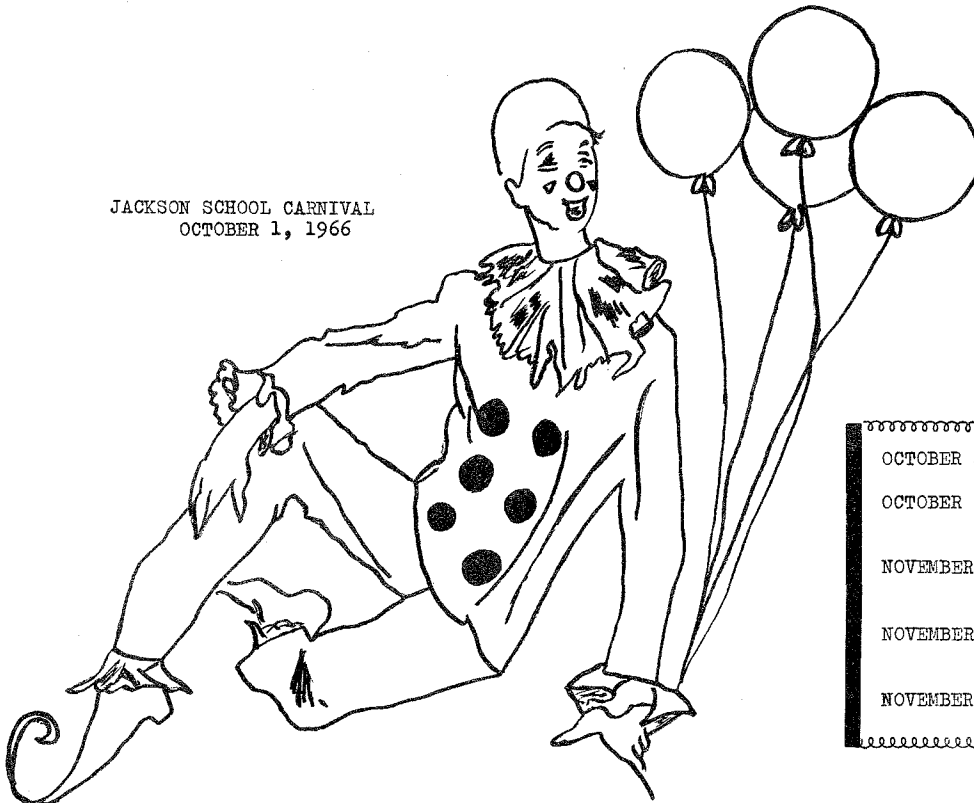

It has been said that children are a nation's most valuable asset and that they grow in value faster than most stocks. Our purpose, therefore, is to protect your investment and see that your dividends increase substantially.

In P.T.A. our prime interest is children - the education of our children - the growth of our children, physically and mentally. This is a job that can not be done by parents alone nor by teachers alone. It is a cooperative venture; one that requires the cooperation of parents and teachers to help every young American grow steadily and surely toward moral and intellectual excellence.

SCHOOL'S OPEN - DRIVE CAREFULLY

We're back again at our "familiar stand" with a few ALL IMPORTANT rules for all children and their parents.

1. Direct your children to "cross" at the designated crossings, preferably where the Policewoman is there to direct them.
2. Travel at the slow 15 M.P.H. speed within the "School Zone".
3. Pick up and discharge children at the official assigned areas.
4. Do not enter the School Yard for pickups or drop-offs. This creates an additional hazard to our "SCHOOL WALKERS". This yard is for "Emergency Business and Official School Personnel only".

BABETTE REUBEN
HEALTH & SAFETY

HEALTH APPRAISAL

The New York State Education Law requires that every child have an annual health examination by a qualified physician. Since the family physician is most familiar with the health problems of your child and best able to institute treatment where needed, we urge you to take your child to your family doctor. At the same time all immunizations could be brought up to date. All responsible health authorities are emphasizing the great importance, particularly of tetanus (lock-jaw) and measles immunization.

If your child has not been examined by your family physician, and the medical form returned to the health room by November 1st, he will be scheduled for a health appraisal by the school physician.

SCHOOL NURSE

BROWNIES

We now have two Brownie troops (grades 2 & 3) at the Jackson School. The leaders have been selected now. If you have signed up your daughter, you will be notified shortly as to when the troops will start to meet.

We are lacking leadership for the Junior level (grades 4-5-6). It can be a worthwhile and satisfying experience for you. If you are interested, please call Lucille Rothman ... Wells 8-2658.

INSTRUMENTAL MUSIC PROGRAM

The aims of our school instrumental music program are many and varied. The study of any musical instrument opens new horizons of individual expression and accomplishment to any child who is willing to put forth the work necessary to achieve this result.

Music can and does give each child a new tool with which to assert his individual feelings within the framework of a strictly organized discipline. The daily routine of individual practice, weekly lessons and group rehearsals all contribute good work habits which can reflect in other academic areas.

The benefits of instrumental music will stay with the student for the rest of his life, whether this skill be used as a participant in a community musical organization or as an educated concert-goer, it will enrich the educational experience of each child.

This year the Jackson School will have its own band and string ensemble. These groups will be rehearsing during the year and will present a concert in the Spring.

I urge you to support your school's musical groups by attending its concerts during the coming school year and in the years ahead.
